The Symphony Orchestra, a new musical

The Symphony Orchestra, a new musical organization, composed of the best ama-teurs and professional musicians of this city, held its first rehearsal at the German House. Herr Karl Schneider, who is con-ducting the orchestra, proposes to give several concerts during the season, produc ing a symphony at each concert. Works of American composers will also be performed at each concert. The next rehearsal will be Tuesday, Sept. 8, at the German House

Christ Church has been entirely remodeled during the summer, and now presents a most inviting appearance. The walls have been decorated. An aisle has been placed down the center of the auditorium, and narrow aisles next to the wall at either side. The pulpit has been put in place, and improvement has been made in every part. improvement has been made in every part. To-day there will be special musical services by both choirs of Christ and St. Paul's churches. Mr. Joseph Joiner is the organist. Early communion will be at 7:30 o'clock and morning service at 10:30 o'clock. The choir will sing "Te Deum in A Major" and "Nearer, my God, to Thee," both by Schnecker, and "Communion," by Dudley Buck. The quartet will be Master Eastman, soprano; Master Pettijohn, alto; Mr. H. D. Fletcher, tenor, and Mr. Thomas, bass.

SNAKE SWALLOWS SNAKE.

An Interesting Scene from Life Down in Florida.

The following is an interesting paragraph in a letter sent to friends here by Harry Hammond, formerly of this city, who is now making his home in Florida;

"To-day I had the good luck to see a sight, that of one snake killing and swallowing another. We came on the scene snake, each a little over three feet long. The king was tied and coiled round the black and the latter's tail could just wiggle. After a few minutes, during which the king tied himself in the most curious knots and ran his head up and down his victim's writhing body, biting it here and there as if examining his supper, he turned to the black's head, gave it a preliminary bite, and then slowly proceeded to take the blacksnake into camp. It seemed impossible that he could swallow a snake as long and as large as himself, but he did. This is how he did it: He would stretch his head as far as possible, get his teeth hooked in his victim's scales, then slip his body up till it was in wrinkles at his neck and for and slide his head forward for another grip, just as if you were putting on a tight glove, in fact. It was the most interesting operation I think I ever witnessed and the king swallowed ail but three inches of the tail of the poor blacksnake and then, with that danging from his mouth glided off into the grass. We let him go as he is a known enemy of the dreaded rattle-snakes and often kills them."

Self-Absorption and Self-Conceit Often Mistaken for Brilliance. Harper's Magazine.

The self-contained woman of a moody and brooding temperament nearly always thinks herself misunderstood and unappre-ciated. She is conscious of many ideas and emotions which are seldom expressed by those around her. So she imagines that they are unique, and that she herself is an original thinker. She finally concludes that these vagrant and fleeting thoughts, which would be rejected by stronger minds, are worth preserving, and that, as much courage is required to speak or write them, such courage argues the possession of genius. It is thus very easy an egotist to grow to consider itself unique and a genius.

A notable example of this absurd mis-take was shown by the late Marie Bashkirtseff. Her great terror was lest her "feelings" should be forgotten. She would have shown higher courage if she had consigned her emotions to oblivion and allowed only her work to stand. The most profund feeling which her story arouses in the mind of the reader is of pity for a woman who struggled, was overwhelmed, and sank in such shallow waters.

Her sufferings, which were real enough, arose from an oversupply of the most un-fortunate passions of the human heart-great self-conceit and profound self-absorp-

tion. And to these she added the moral blindness of never quite perceiving that they were contemptible. But there are many other men and wom-en, dubbed geniuses by the world, whose genius consists in the fact that the only passions in their natures which they find passions in their natures which they find strong enough to give the world are the lowest of which human nature is capable. The genius is rarer who knows that there must be omissions, that the lower passions must always be sacrificed to the higher, and that in the soul's struggle upward it is wisest not only to crush out, but to bury without an epitaph feelings of which we should be ashamed.
